## *Signature* TEMPLATE

**Original signatures will be scanned to create an electronic image to be positioned on your checks.**

**Follow these submission guidelines:**

- Submit three signature samples in **black ink** using a non-skipping ball-point, roller-ball or fountain pen. **You may indicate your preference**, but we may need to use a different signature for technical reasons.
- Try to keep the entire signature within the box.
- Write your signature in the **exact size** you wish it to print – we will resize the signature only if requested.
- If there are two signers, the first should sign in the **A** boxes and the second should sign in the **B** boxes. Use additional templates if there are more than 2 signers.
- **We must have the original ink signatures.** Photocopies or faxed copies are not acceptable.
