# HP Universal PCL5 Driver Set Up
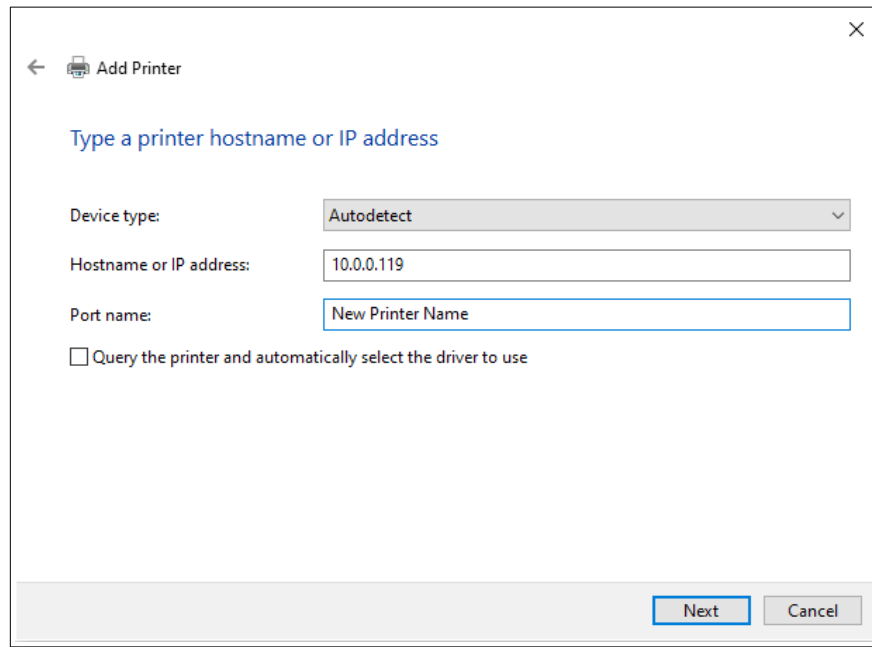

- Make sure that you are using the **latest HP Universal PCL5 driver**
- When download completes, run the .exe file and unzip.
- Select "Traditional Mode" > Next.

- Select "Add a printer using a TCP/IP address or hostname" > Next.
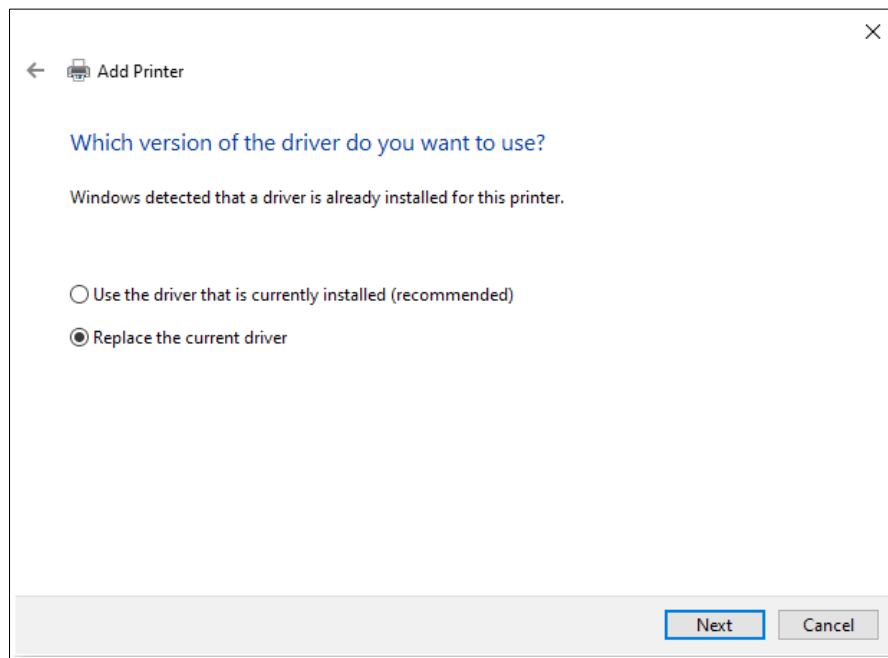

- Specify "Hostname or IP address" by typing the printer's IP address.

  - Type in the Port Name
  - UNCHECK the box for "Query the printer and automatically select the driver to use"
 - Select "Next"

- Select "HP Universal Printing PCL 5" > Next.

- If you have previously installed the printer, it may ask which driver you'd like to use.

    - Select "Replace the current driver" > Next.

- Type the "Printer Name" > Next.

- Optional "Printer Sharing."

  - Specify if you'd like to share this printer to other network users.
  - Select "Next"

- You'll see that you've successfully added the printer.

  - Select "Print a test page" if you'd like to test the printer.

← 🖨 Add Printer   ✕

You've successfully added New Printer Name

To check if your printer is working properly, or to see troubleshooting information for the printer, print a test page.

[Print a test page]

                                                    [Finish] [Cancel]

New Printer Name   ✕

🖨 A test page has been sent to your printer

     This test page briefly demonstrates the printer's ability to
     print graphics and text, and it provides technical
     information about the printer. Use the printer
     troubleshooter if the test page does not print correctly.

                                              [Close]

- Congratulations! You've successfully set up the PCL 5 printer.

Tips On The HP Universal PCL5 Driver

- Make sure that you are using the **latest HP Universal PCL5 driver**

- If you are using the HP Universal PCL5 driver with Checkjet, and you are not getting your secure resources when printing, it may be necessary to change one of the default settings in the driver. In Devices and Printers, right click on the print queue and select Printing Preferences. Then click the Advanced tab. Under "Document Options->Printer Features" change the "Send True Type As Bitmap" setting to Disabled, then click Apply.
